"Tubbs' connection to these women is palpable on the page — as both a mother and a scholar of the impact Black motherhood has had on America. Through Tubbs' writing, Berdis, Alberta, and Louise's stories sing. Theirs is a history forgotten that begs to be told, and Tubbs tells it brilliantly." — Ibram X. Kendi, #1 New York Times bestselling author of *How to Be an Antiracist* and National Book Award winner Stamped from the Beginning Much has been written about Berdis Baldwin's son James, about Alberta King's son Martin Luther, and Louise Little's son Malcolm. But virtually nothing has been said about the extraordinary women who raised them. In her groundbreaking and essential debut *The Three Mothers*, scholar Anna Malaika Tubbs celebrates Black motherhood by telling the story of the three women who raised and shaped some of America's most pivotal heroes. These three extraordinary women passed their knowledge to their children with the hope of helping them to survive in a society that would deny their humanity from the very beginning—from Louise teaching her children about their activist roots, to Berdis encouraging James to express himself through writing, to Alberta basing all of her lessons in faith and social justice. These women used their strength and motherhood to push their children toward greatness, all with a conviction that every human being deserves dignity and respect despite the rampant discrimination they faced. These three mothers taught resistance and a fundamental belief in the worth of Black people to their sons, even when these beliefs flew in the face of America's racist practices and led to ramifications for all three families' safety. The fight for equal justice and dignity came above all else for the three mothers. These women, their similarities and differences, as individuals and as mothers, represent a piece of history left untold and a celebration of Black motherhood long overdue.

*Includes pictures *Includes online resources and a bibliography for further reading After the Civil War, the fight for civil rights spawned a multitude of heroic African-American activists, but it is remembered in large part for the work of a few iconic African-American men of stature. Much like their later counterparts, Reverend Martin Luther King, Jr. and Malcolm X, the debate between gradual integration through temporary accommodation and overtly insistent activism was led by Booker T. Washington and W. E. B. Du Bois. Through the last years of the 19th century, Washington's gentler approach of enhancing black prospects through vocational education, largely accomplished with white permission and funds, seemed the popular choice. His legacy can be sensed in King's subsequent willingness to extend an olive branch to white Americans in a sense of unity, although Washington's propensity for accommodation held no place in King's ministry. Ultimately, however, the vision that oversaw the creation of the Tuskegee Institute faded in the early 20th century as black intellectualism and stiffening resolve came to the fore. This side's greatest proponent, William Edward Burghardt Du Bois, still stands among the greatest and most controversial minds of any black leader in his country. The first African-American to receive a doctorate from Harvard University, Du Bois rose to become one of the most important social thinkers of his time in a 70-year career of combined scholarship, teaching, and activism. The third and most improbable approach toward American civil rights for black citizens blended the beliefs of Washington and Du Bois, and it was spearheaded by global activist Marcus Aurelius Garvey. The Jamaican began his career as an activist with a devotion to Washington's path, but he subsequently leaned to the alternative, and beyond. Beyond the worldview of both colleagues, Marcus Garvey's bigger-than-life scheme was to establish a black-owned and managed shipping line to transport much of America's black population back to Africa. Repatriation of black residents to the African continent had been proposed and debated before, even by Abraham Lincoln, but Garvey's second and equally prodigious vision proposed that once the African diaspora returned to its homeland, an immense empire would assume rule over the continent, housing black cultures from around the globe. This realization of racial segregation would be a boon to black and white societies, at peace but thriving in distinctly separate cultures and economies from the white world. No other black leader wielded such an epic influence on African societies as Garvey, the gregarious visionary who would never set foot on the African continent in his lifetime, but despite this, he was one of the few notable names from the West known to Africans. Garvey very nearly accomplished the impossible while fending off the American federal government's attempts to frame him on any charge that would disarm his vast army of devotees. Booker T. Washington's legacy is based on the continuing success of Tuskegee, and Du Bois co-founded the NAACP and left volumes of brilliant writing and exhortations to black America, but only Garvey inspired the first important nationalist movement of

African-Americans in North America. Central to the many Pan-African Congresses, he founded the Universal Negro Improvement Association, the African Communities League, and the Black Star Shipping Line. Despite being Caribbean-born, Garvey made his headquarters in New York City, and at the peak of his influence was considered the most powerful man in Harlem. In his uplifting speeches on the subject of black pride, his exhortations cast him as the father of the modern "Black is Beautiful" movement. Through his work, Garvey commanded the ear of the masses, millions in number.

Many Beaucoup Magics is based on a true story. Far from your normal war story, it takes place on the Cambodian Border in the south central highlands of Viet Nam in the summer of 1968. It's as if Holden Caulfield from *The Catcher In The Rye* has gone to war haunted by a recurring bad dream about a specific day only to fall in love with the sweet, innocent almost stone-age tribal people he leads on jungle combat operations. These mountain men, considered "savages" by the Vietnamese have no alphabet or written history, yet they began to unlock the mystery of his dream as the critical day draws near. This may be one of the most unusual stories set on a war stage ever told. Come into the highlands but keep a small heart and stay close to the trail....

Garvey went on to become an inspiration for many future civil rights activists. *Marcus Garvey: A Biography*, by Stephen Johnson provides an in-depth look into the incredible life of this truly remarkable man, his vision for pan-Africanism, and his unrelenting fight for the right of self-determination and self-reliance for the African people. Johnson's meticulously researched biography paints the complete picture of a controversial figure who stood in the spotlight during the early years of the battle for racial equality. Marcus Garvey went on to become an early pioneer in this struggle; admired by his supporters, respected by his adversaries, and feared by the government. Jamaica honored Marcus Garvey by declaring him its first national hero. Johnson's work demonstrates how Garvey's message of black pride showed in every aspect of his life and continued even after his death. It brilliantly captures the true essence of a man Martin Luther King, Jr. called, "the first man, on a mass scale and level, to give millions of Negroes a sense of dignity and destiny, and make the Negro feel that he was somebody." Those are the words Marcus Garvey spoke in either October or November 1937. The place? Menelik Hall in Sydney, Nova Scotia. The Marcus Garvey and Universal Negro Improvement Association Papers, Vol. X Univ of California Press

Dedicated to the true and loyal members of the Universal Negro Improvement Association in the cause of African redemption. This volume is compiled from the speeches and articles delivered and written by Marcus Garvey from time to time. My purpose for compiling same primarily, was not for publication, but rather to keep as a personal record of the opinions and sayings of my husband during his career as the leader of that portion of the human family known as the Negro race. However, on second thought, I decided to publish this volume in order to give to the public an opportunity of studying and forming an opinion of him; not from inflated and misleading newspaper and magazine articles, but from expressions of thoughts enunciated by him in defense of his oppressed and struggling race; so that by his own words he may be judged, and Negroes the world over may be informed and inspired, for truth, brought to light, forces conviction, and a state of conviction inspires action. The history of contact between the white and Black races for the last three hundred years or more, records only a series of pillages, wholesale murders, atrocious brutalities, industrial exploitation, disfranchisement of the one on the other; the strong against the weak; but the sun of evolution is gradually rising, shedding its light between the clouds of misery and oppression, and quickening and animating to racial consciousness and eventual national independence Black men and women the world over. It is human, therefore, that few of us within the Negro race can comprehend this transcendent period. We all suffer in a more or less degree; we all feel this awakened spirit of true manhood and womanhood; but it is given to few the vision of leadership; it is an inspiration; it is a quality born in man. Therefore in the course of leadership it is natural that one should meet opposition because of ignorance, lack of knowledge and sympathy of the opposition in understanding fully the spirit of leadership. With the dawn of this new era, which precedes the day of national independence for Negroes, it is well for all members of the race to understand their leadership; know what its essentials, its principles are, and help it to attain its goal and liberate a race in the truest sense of the word. In Chapter 1 of this volume I have endeavored to place before my reader's gems of expression convincing in their truths. Chapter 2 deals with definitions and expositions of various interesting themes. Chapters 3 and 4 contain a collection of brief essays on subjects affecting world conditions generally and Negroes in particular. In Chapter 5 I have reproduced what I consider two of the best speeches of my husband. It is my sincere hope and desire that this small volume will help to disseminate among the members of my race everywhere

the true knowledge of their past history, the struggles and strivings of the present leadership, and the glorious future of national independence in a free and redeemed Africa, achieved through organized purpose and organized action. Amy Jacques-Garvey New York City February, 23, 1923

Marcus Garvey, Hero Independently Published

In the early twentieth century, Marcus Garvey sowed the seeds of a new black pride and determination. Attacked by the black intelligentsia and ridiculed by the white press, this Jamaican immigrant astonished all with his black nationalist rhetoric. In just four years, he built the Universal Negro Improvement Association (UNIA), the largest and most powerful all-black organization the nation had ever seen. With hundreds of branches, throughout the United States, the UNIA represented Garvey's greatest accomplishment and, ironically, the source of his public disgrace. Black Moses brings this controversial figure to life and recovers the significance of his life and work. "Those who are interested in the revolutionary aspects of the twentieth century in America should not miss Cronon's book. It makes exciting reading."—The Nation "A very readable, factual, and well-documented biography of Marcus Garvey."—The Crisis, NAACP "In a short, swiftly moving, penetrating biography, Mr. Cronon has made the first real attempt to narrate the Garvey story. From the Jamaican's traumatic race experiences on the West Indian island to dizzy success and inglorious failure on the mainland, the major outlines are here etched with sympathy, understanding, and insight."—Mississippi Valley Historical Review (Now the Journal of American History). "Good reading for all serious history students."—Jet "A vivid, detailed, and sound portrait of a man and his dreams."—Political Science Quarterly
